

Autodesk FBX SDK Exercise 01

Exercise 01: Setup FBX SDK with your compiler and development environment

1. Download the FBX SDK from:

<http://usa.autodesk.com/fbx/>

Make sure to get: **“Download Free* FBX Software Development Kit (SDK)”**

Note, the “Extensions” SDK is not required for this course

2. Make sure your compiler is working by building some or all of the samples

Test / Explore the samples to familiarize yourself with naming conventions, project settings

3. Review the online documentation
