

Autodesk Maya 2011

Graphics Hardware Certification for Stereo Support

Macintosh® Platform

Last updated: April 15, 2010.

Readme First

The information contained in the [Readme First](#) document applies to all hardware certifications executed on the Autodesk® Maya and Entertainment 2010 software product releases and should be acknowledged by all users prior to consulting the certification charts.

Autodesk®

Graphics Cards

As we did not enable quad buffer support in Maya on OS X, all the graphics cards that are certified for Maya 2011 will only support Single/Dual DFP's, Horizontal Interlace monitors, and DLP's as displays. Also note that only Mac Pro's were tested under 10.6.2.

The following table provides the graphics card hardware certifications for stereo support for the Autodesk Maya 2011 for Apple® Macintosh® software product release.

Note: As there are no specific graphics card driver settings in OS X, the driver version is not covered in this document.

Important: Although Autodesk tested the NVIDIA GeForce and ATI Radeon graphics cards, it is Autodesk, NVIDIA, and AMD policy to only recommend and support the NVIDIA Quadro, ATI FirePro, and ATI FireGL graphics family cards. See the NVIDIA Quadro vs. GeForce GPUs White Paper [[PDF](#)].

Setup and Tested Displays

The following hardware was used during the testing of stereo on Apple Mac OS X.

| Hardware Used for Testing Stereo on Apple Macintosh | | | | |
|---|-----------------|--------------------------|--------------------------------|---|
| Hardware | | Setup | | Comments |
| Brand | Model | Display | Resolution | Notes |
| TBD | | | | |
| Zalman® | ZM-M220W | DFP/Horizontal Interlace | 1680x1050_60HZ | None |
| Hyundai® | W240s | DFP/Horizontal Interlace | 1920x1280_60HZ | None |
| Samsung® | HL-T5089SX | DLP | 1920x1080_60HZ | When the driver first sets up this display, a default resolution of 1680x1050 may be set. 1920x1080 must be used for Checkerboard viewing mode to appear correct. |
| DDD® | 3D starter Pack | Shutter Glasses For DLP | Tied to Samsung DLP resolution | 3D mode must be enabled on the DLP in order for the |
