Important Notes

1. The latest WACOM drivers are required for best tablet support. When installing a new WACOM driver, it is imperative to first uninstall the old driver, reboot, and then install the new one, as per instructions from Wacom Co., Ltd. Failure to do so may impact performance of the hardware.
2. WACOM tablets were certified using hardware and graphics that have been previously certified by Autodesk, as described in the following documents: Graphics Certification & Workstations Certification.
3. If you are experiencing issues not listed in this document, please search our Knowledge Base or contact customer support (http://www.autodesk.com/maya-support).
