Title: Autodesk Smoke 2011 for Mac OS X International Keyboard Reference Guide
Document Version: 1
Date: April 1, 2010

Keyboard Layouts

1

Topics in this chapter:

- [Introduction](#) on page 1
- [US English Keyboard](#) on page 3
- [International English Keyboard](#) on page 4
- [European French Keyboard](#) on page 5
- [European German Keyboard](#) on page 7
- [European Spanish Keyboard](#) on page 8
- [Japanese Keyboard](#) on page 9

Introduction

Autodesk® Smoke® 2010 for Mac OS® X uses a US English keyboard layout as the default layout when assigning hotkeys (keyboard shortcuts). You can use a different keyboard such as a German keyboard with your Smoke system, but keep in mind that some hotkeys may not work, and other hotkeys may be remapped to a different location.

In the Smoke Hotkey Editor you can select the keyboard you are using in the Keyboard Type box.

On your Smoke system, you have the choice of the following Mac keyboards:

- 109-Key (Mac - US English)
- 110-Key (Mac - International English)
- 110-Key (Mac - European French)
- 110-Key (Mac - European German)
- 110-Key (Mac - European Spanish)
- 112-Key (Mac - Japanese)

When you select your keyboard, the onscreen keyboard is changed to reflect your choice, and entries in the Hotkey Catalogue are updated accordingly.

NOTE If a hotkey is set on a key not available for the keyboard selected, the Hotkey Catalogue displays the entry in black. In this case, you can remap an unavailable hotkey to another key that your keyboard supports.

See the following pages for specific layout and hotkey information for your keyboard. For more information on working with the Hotkey Editor in general, see the *Managing Hotkeys* chapter in your Smoke User Guide.

US English Keyboard

This is the default QWERTY keyboard.

International English Keyboard

This is a slight variation on the QWERTY keyboard.

There are no remapped keys on the International English keyboard, but be aware that the ` key is found to the left of the z key.

European French Keyboard

This is the AZERTY keyboard.

The following keys in the French keyboard layout are remapped to US English keys (in light blue in the Hotkey Editor layout).

European Spanish Keyboard

This is another variation of the QWERTY keyboard.

The following keys in the Spanish keyboard layout are remapped to US English keys (in light blue in the Hotkey Editor layout).

Japanese Keyboard

This variation of the QWERTY keyboard is typically used in Japan.

The following keys in the Japanese keyboard layout are remapped to US English keys (in light blue in the Hotkey Editor layout).
